## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

1. The Applicant's representative was contacted to amend an independent claim to place the claim in condition for allowance. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Timothy B. Clise on November 2, 2006.

The application has been amended as follows:

In claim 1, line 7, following the word "minute", - - wherein said step of contacting a substrate with a plasma comprises having a temperature range of approximately 150 to 400 degrees Celsius; and wherein said step of contacting a substrate with a plasma comprises having a pressure range of 1 mTorr to 1.0 Torr - - .

Claims 3 and 4 have been cancelled.

### ***Allowable Subject Matter***

2. Claims 1, 2, 29 and 67 – 71 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Claims 1, 2, 29 and 67 – 71 recite, inter alia, a process for PECVD deposition in which the chamber pressure is maintained in the range of 1 mTorr to 1.0 Torr and the substrate temperature in the range of 150 – 400 degrees Celcius Lane, 4,894,352; Fong, US 5,894,352 and Zhang, US 6,156,395 teach PECVD deposition processes but

fail to teach the above limitations. Furthermore, the art of record does not disclose or anticipate the above limitation in combination with other claim elements nor would it be obvious to modify the art of record so as to form a device including the above limitation.

***Conclusion***

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
